

Team 68++ Progress Report:

- Andrew Son, andrew28
- Sujay Nanjannavar, sujaypn2

Completed Tasks:

- Creating minimum working Chrome extension
- Creation of example output from extension
 - o Testing data to be used for evaluating extension
 - o Drawn from sites such as level.fyi

Pending Tasks:

- Extend functionality of Chrome extension
 - o Implement web scraping on specific sites
- Possibly implementing a classifier such as BM25 to rank output from Chrome extension for additional functionality

Challenges:

- Learning and developing in JavaScript, especially because some members do not have prior experience with this language
- Determining how to write the classifier in JavaScript
- Developing frontend on extension
